„STRETCH FORTE 3R“
PRE-STRETCHED HANDFILM

Special cast technologies with advanced properties make **'Stretch Forte 3R' resource-efficient, and responsible choice for hand pallet wrapping**, offering significant benefits for your business.

This innovative stretch film is designed with sustainability in mind, **incorporating 30% post – consumer recycled material** to help reduce waste and promote a circular economy.
With Stretch Forte 3R, you can wrap your goods with confidence, **knowing that you‘re making an environmentally responsible choice that doesn‘t compromise on performance.**

The manufacturing process for thinner films may require less energy, leading to reduced fossil fuel consumption and, lower **CO^2 emissions**.

Join us in our commitment **to sustainable future with Stretch Forte 3R**
